The Board resolved itself into Committee of the Whole on Part I of Management Report No. 18, Mr. Shaw in the chair. (See Appendix No. 95).

The Committee rose. Mr. Shaw reported that the Committee had adopted the report with the following amendment: By striking out all after the word "reports" in the first line of section 6 and inserting the following instead: that whereas certain professors of the University of Toronto have complained to this Board of the language used by Principal Hagarty in a recent address to his pupils on the subject of the present war, this Board, after due enquiry and consideration finds as follows:

(1). That Mr. Hagarty did not use unduly strong language in denouncing the barbarism displayed by the Germans in this war but that on the contrary he did only his plain duty in explaining to his pupils the causes of the war and condemning the atrocious manner of carrying it on.

(2). That as Members of this Board of Education, holding, as we do, industrious, law-abiding Germans in

this city in the highest esteem, nevertheless, we are of the opinion that the action of Professor Mueller, Professor Squair and others in making this attack upon Mr. Hagarty was unjustifiable and calls for the severest censure and we commend Mr. Hagarty for his teaching of the principles of loyalty and devotion to our Empire and its interests in our schools.

The Board believes it is the duty of the Provincial Government and the Governors of the University of Toronto to enquire into the conduct of these professors and to require them to retract publicly the language they have used entirely upon hearsay evidence, and that a copy of this resolution be sent to the Provincial Government and the Board of Governors of the University of Toronto.

The report was received.

(No. 2.)

INAUGURAL ADDRESS

OF

W. O. McTAGGART, B.A.

Chairman Board of Education for the City of
Toronto, 1914*To the Members of the Board of Education.*

Gentlemen:—I take this opportunity of again thanking you for electing me as your Chairman for the year 1914. It is a high honor indeed when you consider that Toronto is the centre of the educational thought and activity in the Province of Ontario, in fact I may say of the Dominion, and has a population of nearly half a million. Toronto has acquired this reputation not only by the activities of her higher seats of learning but also by the advanced action she has taken in reference to Technical and Commercial education and the high standing of her Collegiates and Public Schools. This reputation and the remuneration offered have enabled us to acquire men and women of the highest standing in the profession as Inspectors, Principals and Assistants. When these facts are taken into consideration, a man occupying this honorable position would indeed be lacking in the characteristics of a true man if he did not exercise his best efforts in order to fill the position in a manner that will be creditable not only to himself, but to this Board and the Citizens who elected him and to the Staff of which he is the recognized head.

I do not purpose following the custom of the past by giving in detail a summary of our various properties and employees but rather the increase in each division so that you may form some idea, by way of comparison with previous years, of our growth and magnitude of the work which has to be undertaken by this Board and the consequent bearing it has upon the tax bills of the rate-payers of the municipality. The increase in the number of employees during the year 1913 and the departments in which they are engaged are as follows:

High School Teachers, nine, besides thirty-five doing part time work in the Technical Schools.

Supervisors, six, including two physical culture, one writing, two music and one art.

Public School Teachers, one hundred and six, of which fifteen are assistant masters; seventy-eight, female assistant teachers; thirteen, Kindergarteners, besides annexed schools, Eglinton, Bedford Park, and Davisville with three Principals, seventeen female assistants and three Kindergartners.

Medical Inspection Department, three Doctors, four Dentists and eight nurses.

Superintendent of Building Department, office staff, two; caretakers, three; carpenters, painters and general workmen, forty.

This gives an increase in employees of all kinds, of two hundred and thirty-nine, or a total of 1863.

We found that, during the last year, the communications by telephone, with the offices became so numerous that it was necessary to establish a central telephone service.

The increase in the enrollment of pupils in the Public Schools only, for the month of October, 1913, as compared with the same month in 1912 was 5258, which made a total enrollment of about 73,000 pupils in all departments.

During the year just closed we have paid out the sum of \$3,-934,975 which may be divided approximately, as follows:

Salary of teachers.....	\$ 1,191,305
Salary of Officials and Staff.....	64,172
Salary of Medical Inspection, doctors, nurses and staff.....	47,817
Other salaries, including night school teachers, caretakers, of High and Public Schools and workmen.....	155,174
Other school maintenance expenditure.....	875,528
Buildings and sites Public and High Schools.....	1,199,594
Technical High Schools.....	383,584
High School of Commerce site.....	62,947
North Toronto High and Public Schools.....	22,115
Paid to Superannuated teachers by the Board...	12,739

The most important change in connection with our employees for 1913 was the substitution of Mr. Cowley, as our chief Inspector, for that of Dr. Hughes, I know that my colleagues will agree with me when I say that we made a singularly fortunate selection

when we chose Mr. Cowley. He is a gentleman of wide experience in the work and has already given indications that he has applied himself to the solution of the housing of financial problems of our educational system. I am thoroughly in accord with his recommendations as to the re-arranging of classes and consequent saving, to the citizens of Toronto, of the salaries of some forty-five teachers. This suggestion also means a considerable relief to the Building Department, as it saves the erection of forty-five rooms, and consequently a corresponding decrease in our building appropriations. I trust that the members of the Board, in conjunction with the Chief Inspector and the co-operation of Principals and others concerned, will bring this matter to a successful issue. I am looking for other reforms in our system when Mr. Cowley becomes seized with the whole situation. I do not know whether he agrees with me or not when I say that I consider there are too many interruptions in our school work, too much time taken up with matters that, possibly, should have a place on the curriculum but are given much more attention than their merits seem to warrant. Many new ideas in educational work each, possibly having some merit, have been added to our system in the past few years but these should be dealt with intelligently and not as hobbies to be exploited at the expense of more essential things and for the self aggrandizement of those more particularly interested in them. I am referring to the purely scholastic side of our work and hope that the aim in the future will be to prevent these recent innovations from infringing on the rights of the pupils in obtaining a thorough grounding in that which is commonly known as the essentials in their education. While I am dealing with this matter before referring to our properties, I would like to say that I believe some of our subjects would have a better educational value if they were more adapted to the peculiarities of the sections of the City in which they are taught. I will quote but one instance and that is in reference to Domestic Science. In classes where foreigners predominate and in the less wealthy sections I would modify the course by giving in addition to instructions in plain cooking, a knowledge of the essential things required for a good housekeeper.

PROPERTY DEPARTMENT.

This is a large spending department and the amount involved in its expenditures during the past few years has been very considerable. Let us look for a moment as to the reasons for these

large outlays. At the beginning of 1913 we had ten Collegiates and High Schools; seventy-five Public School buildings with an accommodation for 1109 classes. During the year 1913 we have completed the building of one High School, three Public Schools and made additions to three others. These completed operations add 58 rooms to our accommodation. We have also in course of erection additions to two High Schools, five new Public Schools, and additions being made to thirteen others, or twenty in all, which will add 135 rooms. We have also under way or completed the plans for the new High School of Commerce and Finance, Orde Street and Niagara Street Public School and the enlargement of Eglinton and Davisville Schools which add 51 more rooms. When these are all completed we will have a total of 1353 class rooms or a total addition of 244 rooms as compared with Jan. 1, 1913.

These are large operations and are consequent upon the rapid growth of our City and the annexation of such large districts during the last three years. In my earlier remarks I pointed out that the school population increased during last year by over 5,000 pupils, representing over 100 rooms with a maximum of fifty pupils per room. We find with this rapid increase that if eight rooms are required in a district we have to provide for over double this number because there will be pupils to fill this number of rooms by the time the building is completed. We have, I regret to say, at present, hundreds of pupils occupying basements, portable buildings, etc., but I venture to say that if we are as successful in our building operations in 1914 as in 1913 we will have at the end of this year all our pupils in the regular school buildings. I make this statement in view of Mr. Cowley's recommendations and after giving much consideration to the subject.

Our maintenance and repair account is another large factor in our expenditure. We are all aware how essential it is to keep our buildings in a good state of repair as a small defect not attended to this year may cause a considerable outlay in the succeeding year. The Property Committee last year passed over 1300 items of repair. I gave close attention during the past year to this work and the department responded nobly to my request, so that for the first time in the history of the Board all these items have been practically attended to.

Some criticism by the ratepayers, Board of Control and the City Council has resulted from these expenditures but much of it has been caused by the action of the Council itself in annexing new

districts. I am not criticizing their actions in taking these sections into the City but I wish to point out that we are in a different position in regard to the expenditures on these districts than they are because they can postpone the putting in of sewers and laying of pavements and sidewalks as long as they can withstand the wrath of the citizens but we are under the Education Act and have to immediately give the proper school accommodation, with sanitary equipment and all other accessories. Some of you may be surprised to learn that in the last four years, in the East, West and North, in these new districts we have spent over \$2,500,000, the total appropriation of \$1,750,000 for sites and buildings in 1913, the districts annexed during the past four years received \$750,000 of it. In the four years, since these annexations Ward 7 received \$750,000; Wychwood and Hillcrest districts \$765,000 and Ward 1 about one million dollars. We received 102 class rooms with these districts and they now have 355.

If no more annexations are made I hope to see our buildings estimates materially reduced in the near future. As we were so successful during the past year with our repair work I hope to see that Estimate reduced after this year by a large item. When the present operations are completed the older sections of the City will be well equipped with modern buildings, with the exception of Jesse Ketchem, Park and Givens Street Schools. We will, of course, have to always take care of the increase in School Population.

JUDGE WINCHESTER'S REPORT.

Before passing from dealing with the Property Department I wish to say a word in connection with the investigation. I cannot say, at this juncture, very much in regard to what action should be taken in the matter until I am fully seized of all the facts, I am of the opinion, and I think the majority of the Board will agree with me, that the Superintendent of Buildings should be given an opportunity to reply to the charges and then, when all the facts are before us, you will bring to bear upon your decision a judicial mind, free from vindictiveness or any outside influences on either side of the case, and that you will render a decision which you conceive to be in the best interests of the citizens of Toronto.

ORDE STREET SCHOOL.

The plans for a new school on Orde Street give evidence of some new ideas in school construction and will afford an opportunity to experiment with open air classes. It was first decided to make this trial on the upper story of the Hester How School, but we could not obtain a permit for this so the third story of Orde Street is given over to this idea. We will have there two class rooms, play room, kitchen and all that is necessary in order to give this innovation a proper test. Upon the results obtained there the Board will be able to decide as to the desirability of continuing along this line of action.

HUMEWOOD SCHOOL.

Humewood School, now in process of erection on Humewood Ave., is a new departure insofar that it is being built beyond the limits of the City. This School was erected under the amendments made in 1911 to the Public Schools Act. The principle sections bearing on the matter read as follows:

“(1) The Board of Education in any city may agree with the Board of Public School Trustees of a school section adjacent to the boundaries of the city for the erection, equipment and maintenance of a school in the school section for the joint accommodation of pupils from the school section, and from any designated area in the city contiguous to the section:

“(2) The agreement shall fix the location of the school, the class of building to be erected, the accommodation to be provided and the proportion of the cost of erecting and maintaining the school to be contributed by the city and the rural school section respectively.”

The agreement was entered into unanimously by both parties to it and it received the formal sanction of the Minister of Education. The non-residents pay towards its maintenance the same rate on the dollar on their assessment as residents in the city pay on theirs.

ANNEXATIONS.

I noticed that His Worship, the Mayor, in his Inaugural Address, recommended that the district North of St. Clair, lying between Avenue Road and Dufferin and extending some distance northerly, be taken into the City immediately. Should this action be taken

the wisdom of the Board in building Humewood School will be amply justified. The Mayor also recommended the annexation of the district of which Todmorden is the centre. I understand that the Trustees in this district have decided to put up a school at a cost of about \$100,000 for site and building. If I am correctly informed as to its location I would advise the Board to arrange a conference with them at once as it would be too far North for our purposes, that is relieve to Frankland and Earl Grey, and too far south to locate a school between it and the two city schools.

THE TECHNICAL SCHOOLS.

The progress of Technical and Industrial Education in Ontario during the last three years has been very marked. Evening schools have been opened in nearly every City and Town of industrial importance in the Province, and in several of the larger centres Day Schools as well. Toronto has not been behind in this regard, for we have greatly expanded our work in the Central Technical School, and have organized four Branch Schools for evening classes. The average attendance for the last term, of both day and evening pupils, amounts to over thirty-one hundred, and the classes continue to grow steadily in numbers wherever we provide suitable accommodation and instruction.

Evidently Technical education must now be recognized as one of the most important features of the work of our Board. The rapid growth of this work, in Toronto, is in some measure due to the placing of the conduct of the schools under the direction of the Advisory Industrial Committee on which there is representation of the interests of both employers and employees, as well as of the Board of Education. This organization has brought vitality to the schools, has aroused greater interest on the part of the public, and has resulted in popularizing the work in the minds of those engaged in industrial work. Among the many tens of thousands of workers, employed in connection with our great industrial interests, there will undoubtedly always be a large number who will seek to take advantage of technical instruction. In the accommodation provided in the new Central building, we have not exceeded the present demand.

The progress of the construction of this new building during the past season has been very satisfactory, and the stone walls, already

two storeys above the ground, indicate that we shall soon have an educational building in keeping with the foremost position which Toronto holds in industrial Canada.

The Board, in my opinion, should soon take steps to proceed with the erection of Buildings for the Branch Day Schools which are to form a very important part of our system. These branch schools will not only serve as preparatory schools for the more advanced classes of the Central School, but will also give relief in the fourth and fifth form classes of the Public Schools, and when we are considering the extension of public school accommodation, these branch schools must be taken into account.

In this connection we should see to it that the parents of the pupils, as well as the teachers of our schools, are made acquainted with the conditions of entrance to the classes of the Technical Schools so that those who wish to follow the pursuits of industrial life, may take advantage of the expensive equipment and of the instruction by specialist teachers, provided for them.

FEDERAL AID TO TECHNICAL EDUCATION.

During the past year the Royal Commission on Industrial Training and Technical Education issued its report.

In view of the heavy financial responsibility undertaken by the Board of Education toward providing such education for the city, it is of the greatest importance to us that the Dominion Government should make no delay in taking practical steps to aid technical education.

The Commission has recommended an annual provision of \$3,000,000 by the Parliament of Canada to aid technical education. Small as this sum may appear in comparison with the total revenue of Canada, it would mean a very large annual grant to Toronto were the Federal Government to take this progressive step. The Premier himself had an opportunity, while laying the corner stone of our Technical School, to form some idea of the large undertaking for which we have become responsible in the interest of national development. Is it not in order that the Board of Education at once call attention of our representatives in the Dominion Parliament to the benefit their prompt and forceful action may confer on the city?

HIGH SCHOOL OF COMMERCE AND FINANCE.

The High School of Commerce and Finance has entered upon its third year as a separate institution. Previous to 1904 it was a department of High School work in Harbord, Jarvis and Parkdale Collegiate Institutes; from that time until 1911 it was the Department of Commerce and Finance in the Technical High School. In the last named year it was wisely given a distinctly separate existence and organized under Departmental Regulations as the High School of Commerce and Finance. This school was first located temporarily in ten upper rooms of the King Edward Building; it is now, however, being accommodated in the former Clinton Street Building, which is already taxed to its capacity.

Evening Classes were organized in this department of school work for the first time in Oct. 1912, and have opened up this year with an increased attendance along every line.

The registered attendance for the present school year is now 1085, of which 750 are in the Evening Classes, there being 625 in the Central School and 125 in the Queen Alexandra and Annette Branches. The attendance keeps pace with the extra accommodation as fast as it can be provided, emphasizing the fact that the proposed new building should be provided at the earliest possible date.

A suitable site for the new building has been purchased and is located just north of College Street, extending from Roxton Road to Shaw Street, having an area of from three to four acres. The plans are nearing completion and the advisory Commercial Committee expect that tenders will be called for and work on the new building commenced at an early date. When completed this new building will accommodate about 1,000 day students and from 1,800 to 2,000 evening students.

The Day School provides courses extending over a period of from one to four years, according to the time students can spend at school. These courses give an all-round High School Education, with a special training in the more purely commercial subjects, so that students may be equipped for and prepared to meet successfully the various aspects of present day business. Many former students are now in managerial positions, and the available supply of such help is not at all equal to the demand.

The Evening Classes, in both the Central and the branch schools, provide instruction in all the regular commercial branches, one or more of which may be selected by the students to suit his business connections. The classes are highly appreciated and are well patronized by all classes of the community, not only by young men and young women, but by older persons as well.

The school is accomplishing the end for which it was organized, but those in charge are extremely anxious for more and better accommodations.

PROVISION FOR MENTALLY DEFECTIVE PUPILS.

Recent returns from Principals indicate that there are perhaps two hundred and fifty mental defective at present in attendance at the schools. In many cases their presence in the regular classes is a handicap on the general progress.

Under an Act Respecting Special Classes passed in 1911, such classes may be established for pupils who from physical or mental causes require special training and education.

While this act does not give School Boards the power to compel attendance at these classes, or to exclude mental defectives from the regular classes, it seems reasonable to expect that if a number of well organized special classes were established in suitable locations, the general effect would be to centralize the attendance of mental defectives.

While opening special classes would constitute but a first step in the organized treatment of mental defectives, this is perhaps as far as it would be wise for the Board to go, at least until the Minister of Education defines the powers and duties of School Boards in the premises, and makes regulations for the administration and enforcement of the Act referred to.

The special classes would afford opportunity for expert observation and classification of the pupils with a view to separating those who cannot be dealt with by the public school, and who, at the proper time, should be removed to a custodial institution conducted by the municipal or the provincial authorities.

In the meantime, a suitable class room on the ground floor of a public school should be set apart for each special class. As there would be only about fifteen pupils in each class, the floor space would be sufficient to provide scope for physical drill, constructive work, games, and other appropriate exercises.

DEPARTMENT OF MEDICAL INSPECTION.

It is not necessary for me to refer, in detail, to the organization of the Medical Inspection Department and the nature of the work they are doing. These are well known to the public and to ourselves but would draw your attention to some of the changes made in the department and the expansion of the work.

The most important change in the personnel of the staff was made when the Superintendent of Nurses, Miss Rogers, resigned and was succeeded by Miss Paul. Miss Rogers' resignation was received after considerable influence had been brought to bear upon her by the Chief Inspector. However, the Board are pleased to know, that as Mrs. Struthers we will doubtless frequently have evidence of her good advice.

Dr. Minns, of the staff, was appointed to do special work in an effort to discover all cases of Tuberculosis among the children.

There were four dental clinics established in the schools, viz: Annette, Earls court, Queen Alexandra and Roden. There are about 20,000 children of the less wealthy classes, in this city, with badly decayed teeth and septic mouths. A large number of diseases, both contagious and non-contagious, are attributed by our Medical men to these conditions. For each child that takes ill because of these preventable conditions the City has to pay one dollar per day for hospital care. The average stay per child at the Hospital for Sick Children for 1913 was 32 days. To this we must add the distress caused by illness in the family, and the hindrance to the child's physical development and school progress. Last year 791 school children were cared for at the Hospital for Sick Children, and 560 at the Isolation Hospital. It is difficult to estimate how many children have been taken ill owing to septic mouths but I am convinced that this is a very important feature of the work of this department.

The Forest School was open for practically six months of the year and the results obtained appear to be very satisfactory. The aim is to produce an all-round development in those who are physically weak. The average gain in the weight of 84 children who were regular in their attendance was almost 6 pounds, the gain varying from $2\frac{1}{2}$ to 15 pounds. The results, not only physically but intellectually, seem to warrant an extension of this work.

The Medical Department has now a staff of 22 Doctors, 38 Nurses, 5 Dentists and 2 stenographers.

I append, for general information, a synopsis of the work done by the Doctors and Nurses for the year 1913.

PUBLIC MEETINGS IN SCHOOLS.

I am a thorough believer in giving to the public, every opportunity to use our schools, in the evenings for meetings, of various kinds. The Schools are the property of the people and should be utilized by them for every purpose that has an educational value. It involves some expenditures for additional caretaking, heat, light

and seating but the results to the community will warrant it. There has been about 6,000 of these meetings held during the past year and the chief purposes of these are as follows:

Church Services.

School Entertainments.

Ex-pupils meetings.

Teachers' Associations.

Physical Training classes.

Parents' Meetings.

Educational Associations.

Settlement housework.

School Art Leagues.

Ratepayers' Associations, etc.

The list, itself, shows the wisdom of this movement.

CONCLUSION.

In conclusion, gentlemen, I may say that I am looking forward to a very pleasant year, believing that I will have your co-operation at all times.

A period of financial stringency has existed for some months, and although we hope to have seen the worst of it, it is my desire, as I trust it is yours also, that no money will be spent this year except what is absolutely necessary so as not to sacrifice in any way the Educational interests of the City. We should endeavor to retrench and do all within our power to lessen the burden upon the taxpayers of the City of Toronto.

MANAGEMENT REPORT NO. 1.

Thursday, January 15th, 1914.

To the Board of Education:

At a meeting of the above-named Committee, held this day, the following members being present, viz, Messrs. MacKay, Conboy, Fairbairn, Houston, McTaggart, Shaw and Steele, it was decided to recommend as follows:

PART I.—HIGH SCHOOLS.

1. That the request of the Toronto Symphony Orchestra that the pupils of the High and Public Schools be allowed to attend a Concert on Friday, February 6th, at 3.30 o'clock p.m., without loss of certificates, be granted and that the Senior Principal of High Schools and the Chief Inspector of Public Schools co-operate with the Manager of the Orchestra so that the matter may be brought to the attention of the scholars and the tickets sold.

2. That the Secretary be instructed to advertise for an additional teacher at Oakwood High School.

3. That the following accounts be paid:

A. L. Hess, manual training tools, Oakwood.....	3 50
Water Works, water, North Toronto.....	32 30

PART II.—PUBLIC SCHOOLS.

4. That leave of absence be granted to Mr. W. J. Hendry, Principal of Jesse Ketchum School for three months on account of illness.

5. That the resignation of Mr. J. H. Joynt, assistant master in Victoria Street School, be accepted.

6. That the Piano presented to the Board by the Citizens' Concert Committee, for use in the Bedford Park School, be accepted with thanks.

7. That arrangements be made at once for the continuance of Domestic Science classes for the pupils of Joseph Workman School.

8. That the request of the Principal of Kent School to be allowed to teach French in connection with the Commercial Classes in that school, be granted in view of the fact that this can be arranged without extra expense to the Board.

9. That Dr. W. E. Struthers, Chief Medical Inspector, be granted leave of absence for one day to address a public meeting at Orillia in reference to Medical Inspection in the Schools.

10. That Dr. W. H. Doherty, Dental Inspector, be granted leave of absence for January 27th, 28th and 29th to attend an Annual Meeting of the Institute of Dental Pedagogics to be held in Buffalo on these dates.

11. That the Annual Public School Concert be held on Friday, May the 22nd in Massey Hall, as heretofore.

2. That the resignation of Mr. Fred Stephens, caretaker of Queen Victoria School, be accepted, same to take effect January 31st, 1914.

3. Your Committee's attention has been called to the reports made to the Management Committee by the School Inspectors, which it is to be regretted have appeared in the daily newspapers and are calculated to mislead the public owing to the fact that the reports refer in many cases to conditions found in the schools as far back as September last and extend from that time to the end of the year. It is deemed proper that the Board should be informed of the fact that the necessary repairs, etc., referred to have been almost entirely attended to or provided for, and your Committee would further inform the Board that the balance of the report is taken up almost entirely with reference to enlargement of sites and buildings which would include additional lavatory accommodation and most of the other matters referred to. In all cases these enlargements are in contemplation or in process of completion.

Respectfully submitted,

J. W. JACKSON,
Chairman of Committee.

Amended as follows:

1. By referring back sub-section (b) of section 5 for further consideration.

2. By changing sub-section (b) of section 8 to read "Leslie Street School, construct an additional storey containing seven rooms—\$50,000.00."

Adopted by the Board, as amended, February 19th, 1914.

W. O. McTAGGART,
Chairman.

(No. 18)

FINANCE REPORT NO. 3.

Monday, February 9th, 1914.

To the Board of Education:

At a meeting of the above-named Committee held this day, the following members being present, viz,—Messrs. Brown, MacKay Jackson, Shaw and McTaggart, and at a subsequent meeting held February 13th all the members of the Committee being present, it was decided to recommend as follows:

PART I.—HIGH SCHOOLS.

1. That the minimum salary of the Principals of Collegiate Institutes and High Schools be \$2,500.00 per annum, to be increased at the rate of \$100.00 per annum until the maximum of \$3,200.00 is reached.

2. That the Principal of Malvern Avenue Collegiate Institute be paid the fifth year salary for Principals, viz, \$2,900.00.

3. That the Principal of North Toronto High School be paid the minimum salary of a Principal, viz, \$2,500.00.

4. That there be two grades of assistant teachers as follows:

- (a) Graduates who are specialists at the head of a department;
- (b) Graduates and all others assistants who are not at the head of a department and that the maximum salary for these grades be \$2,400.00 and \$2,200.00, respectively.

5. That the salary increases for assistants in all grades be \$100.00 per annum, until the respective maximum salary is reached, as follows:

1st year.....	\$1400 00
2nd year.....	1500 00
3rd year.....	1600 00
4th year.....	1700 00
5th year.....	1800 00
6th year.....	1900 00
7th year.....	2000 00
8th year.....	2100 00
9th year.....	2200 00
10th year.....	2300 00
11th year.....	2400 00

And that the salaries of all assistants who were in the service of the Board previous to January, 1913, and received for 1913 an addition of \$50.00 to the regular schedule be also paid \$50.00 additional in 1914, this being the final installment of the adjustments of salaries in consideration of previous service; providing that they do not reach the maximum under the application of the regular schedule.

6. That the initial salaries for all regular assistants in the Collegiates and High Schools be:

For less than 2 years' High School experience.....	\$1400 00
For 2, 3, or 4 years' High School experience.....	1500 00
For 5 or more years' High School experience.....	1600 00

7. That in fixing the initial salaries the time allowance for experience other than that obtained as regular teachers in the High Schools and Collegiate Institutes of the Province, be one-half of that allowed for such High School experience.

8. That Mr. R. N. Shortill, Manual Training teacher in Oakwood High School, be paid at the rate of \$1,800.00 per annum.

9. That Miss I. Sutherland, Domestic Science teacher in Oakwood High School, be paid at the rate of \$1,200.00 per annum.

10. That the Senior Principal of High Schools be allowed \$600.00 for additional services to be performed for this Board.

11. That the sum of \$500 be placed in the Estimates for services in organizing and general supervision of the evening classes.

12. That the Assistant Principals in the evening classes in the Collegiate Institutes, on the basis that they teach three nights a week, be paid \$550.00 a year.

13. That Assistants in the evening classes in the Collegiate Institutes who are specialists be paid \$5.00 per night.

14. That all other Assistants in the evening classes in the Collegiate Institutes be paid \$4.00 per night.

15. That the salaries of the teachers, office staff and caretaker of the Technical Schools be paid as set forth in Advisory Industrial Report No. 2, Appendix 1, see page 54.

16. That the salaries of the regular day teachers of the High School of Commerce and Finance be paid as set forth in Advisory Commercial Report No. 2, see page 64.

17. That Mr. Eldon, Principal of the High School of Commerce and Finance, for services in organizing and general supervision of the evening classes throughout the year, be allowed \$500.00 per annum.

18. That the Assistant Principal in the High School of Commerce evening classes, on the basis that he is on duty three nights a week, be paid a salary of \$400.00 per year.

19. That Assistants in the High School of Commerce evening classes, who are specialists and on the regular staff, be paid \$5.00 per night.

20. That other Assistants in the High School of Commerce evening classes, who are on the regular staff, be paid \$4.00 per night.

21. That all other Assistants in the High School of Commerce evening classes, who are not on the regular staff, be paid \$3.00 per night.

22. That occasional teachers be paid at the rate of \$5.00 per day.

23. That no teacher's salary be reduced from the salary paid in 1913.

REPORT OF SPECIAL COMMITTEE.

Appointed by resolution of the Board to consider Judge Winchester's report and Mr. Bishop's reply thereto and to investigate the conditions which prevail now in the Building Department.

To the Board of Education:
City of Toronto, Canada.

Gentlemen:

Your Committee appointed by you to examine into the present conditions prevailing in your Building or Property Department and to consider in relation thereto the Report of Judge Winchester of his investigation and the Reply of the Superintendent of Buildings, Mr. C. H. Bishop, begs to report that for convenience and logical comparison it divided the contents of the documents into sections, and after due consideration presents its conclusions and recommendations in the following terms:

SECTION 1.—COAL CONTRACTS.

Report—Pages 6-39. Reply—Page 7.

After considering this section the unanimous opinion of your Committee is to the effect that no suspicion rests upon the Department or any of its officers in relation to the matter dealt with in this section. The Department did all that it could reasonably be expected to do in order to get a fair test at the University and based its action solely on that test.

SECTION 2.

Report—Pages 39-54. Reply—Pages 7-18.

Dealing with Inspectors' Reports, lumber, weights, etc.

LUMBER, WEIGHTS AND PAPER.

Your Committee regrets that the first report of Messrs. Jessiman and Craddock was based upon wrong specifications and consequently contained many errors and that it was published in this shape, before the corrections were made. They also made several errors not due to the specifications.

In reference to lumber it was clearly shown that the specifications called for "Roofing and Common Flooring," and that they provided for the use of Spruce of good quality as well as Pine of second quality. It was also found that through carelessness on the part of the Inspectors, Hemlock had been used in limited quantity, where it should not have been, but not at any time by the permission of or approval of the Department or its officers, and the conclusion of your Committee is that the Board has suffered no financial loss of any importance by use of one kind of lumber for another.

Regarding the use of iron and lead weights it is the opinion of your Committee that the prevailing custom was followed in using lead weights where the limitations of space required it, and iron weights in all other cases, and that the loss to the Board on this account, if any, has been very small indeed.

SECTION 3.

Report—Pages 56-84. Reply—Pages 18-22.

Subject—Sundry Settlements.

After considering in general the records regarding the several matters referred to in these pages, your Committee find that errors in some cases in the plans issued from the Building Department of the Board, and changes made in such plans ordered by the City Architect's Department, after contracts had been let, have altogether caused expensive alterations, and led to many extras which have been paid to contractors; that the methods employed by the Building Department in making settlements during the period covered by the investigation were not satisfactory, and especially so in the matter of records; that a closer check on men's time and material used in connection with repairs should have been kept, as it is now being done; and that the connection of officials with outside matters referred to in the report did not in any way cause loss to the Department or reflect adversely on the honor and reputation of the officials named.

SECTION 4.

Report—Pages 84-189. Reply—Pages 23-56.

Subject—Heating and Ventilating and Sundry Contracts.

After consideration of this whole matter and, in view of the methods employed in making the adjustments and the variations from the specifications, your Committee concluded it was quite beyond its jurisdiction to decide as to any definite loss or losses sustained by the Board and we, therefore, recommend that "the Board of Education employ Counsel to advise and consult with our Solicitor; to go over the evidence dealing with contracts in the Report and the Reply; and if in their opinion they find in said evidence that the Board has suffered any material loss in any of these transactions, that they advise the Board what procedure the said Board should take in order to recover said losses."

PRESENT CONDITIONS.

Your Committee has examined into the present conditions prevailing in the Department and has compared some of the records as kept prior to 1912, with those which have been made since that date, and while the older records were lacking in detail, especially as to the closing of contracts, the present method of recording the business of the Department seems to be quite satisfactory and is now very well carried out as a result of the additional help employed.

FURTHER RECOMMENDATIONS.

As a result of its examinations your Committee is pleased to report that the recommendation of His Honor, Judge Winchester, "That proper books should be kept in which all matters relating to the carrying out of contracts in the Department should be entered from day to day, setting forth the extras ordered, the amount of same, deductions, inspections, and everything that is necessary to give an accurate statement of the position in which each building account is; that reports in connection with the building, extras and repairs should be in writing signed by the Inspector and dated," had already been acted upon prior to the issue of his Honor's Report.

Also that his recommendation in regard to a more complete record of matters relating to repairs be inaugurated has been provided for and is now in operation in a satisfactory manner.

It therefore remains for us to concur in the further recommendation of his Honor, and we recommend to this Board, "That an experienced man be appointed to the head of the Property and Building Department and given full authority to appoint and dismiss architects, inspectors, caretakers, clerks and other officials, to conduct the whole work of the Department and that he be held responsible for the proper administration of the Department in every detail."

Respectfully submitted,

MILES VOKES,

Chairman.

ARCHITECT CURRY'S REPORT RE WALLS AT NEW
TECHNICAL SCHOOL BUILDING.

W. O. McTaggart, Esq.,

Chairman Board of Education, Toronto.

Dear Sir:

I beg to report that I have examined the walls of the New Technical School Building and find that while they are not as well built in many respects as called for in the specifications, they are generally speaking, as well built as are the walls of buildings of like character. The walls as a whole are reasonably true and plumb and well flushed with cement mortar. There are portions of the walls which are neither true nor plumb, nor are they fully flushed, but notwithstanding they will compare fairly well with work as usually carried out on similar buildings.

The pressed brick internal walls are plumb and true on all leads and are reasonably true between leads. There are places here and there where the walls are full or hollow, but the difference from true is not generally more than $3/16''$ to $1/4''$ of an inch in twelve feet, except in some places where it slightly exceeds $1/4''$ of an inch. Much of the work is straight and true. The pressed brick walls are full in places at the level of the header band 2' 9" above the floor, and the base strip is set in somewhat, in places. In some spots the backing walls were built full and the facing bricks had to be cut on the back edge so that the face of the pressed brickwork could be made true to line,

The pressed brick walls are not being kept as clean as they should be and it will be almost impossible to clean properly a large portion of the walls, on the completion of the building.

The walls of the building with some exceptions, are well flushed, the joints being well filled with mortar. There are some open joints and in places the bricks were laid so close together that it was impossible to fill the joints. I have seldom seen walls where the joints were better filled with mortar.

Ten openings were made in the walls to expose the manner in which the brickwork was laid; and the tops of the East corridor walls were taken down in a number of places. The worst opening showed twenty-five per cent. of voids in the vertical joints. This opening was in the work last built.

The outside walls of the building are built better than the interior walls. The only fault that I would find with the exterior walls is that there are a number of long running joints in the random coursed work without a break or change in the coursing. A great deal of the work is very well done.

It is impossible to get good work done under adverse conditions and where good clean work is desired it must be done under favorable weather conditions, and that means that no work can be done in frosty weather. If the mortar freezes the face of the joints will fall off, making it necessary to repoint the work, which cannot always be done satisfactorily. These remarks refer to pressed brickwork or other work which must be carefully laid and jointed. Rough walls may be built in comparatively bad weather, but it is difficult to get the joints properly flushed up in cold weather.

I am satisfied that the contractors have in parts of the work speeded it to an extent which resulted in inferior work. They have also at times worked the men far too closely. You may put a lot of men on a rough wall and work them closely without injury to the work, but it cannot be done on pressed brickwork or where it is desirable to keep the walls straight and plumb. The cement mortar was not at times kept properly tempered and was too stiff to allow of the work being well flushed up.

The only work that can reasonably be objected to as being badly built, is the wall north of the north corridor. This wall was built in frosty weather and was about the last work done on the building. The pressed brickwork is not in good shape as the joints have been injured by frost and the wall is more out of plumb and line than any of the other walls. The back of this wall is not as plumb and true as the other walls. I plumbed the back of this wall at a number of points, all of which were out less or more. At one point the wall is one inch in, top and bottom from a plumb line carried down the face of same. If the wall at this point is full $\frac{1}{2}$ " an inch in the centre, then the wall would be out only $\frac{1}{2}$ " an inch from a plumb line.

One difficulty in the way of building the inside of some of the walls plumb and straight, is that the galvanized iron heating and ventilating pipes are set in place before the walls are built and the pipes are not always plumb or in their right position. This is done with the object of building the anchors holding the pipes in place into the walls as they are built.

On making inquiries, I find that Mr. Eadie has protested a number of times to Messrs. Ross & Macdonald and to Norcross Bros as to the manner in which the work was being done. These protests have had some effect, otherwise the work would not be in as good shape as it is.

I consider that it is only fair to Mr. Eadie to state that in my opinion he is a capable and conscientious clerk of works. The position is a most difficult one to fill satisfactorily, as I very well know, for I have had some experience in trying to get work done up to specifications and according to working drawings.

Yours very truly,

(Signed) S. G. CURRY.

REPORT OF MESSRS. HELLMUTH & BROWN, ON JUDGE
WINCHESTER'S REPORT AND MR. BISHOP'S REPLY
THERE TO:

To the Board of Education, Toronto:

Gentlemen:

As instructed by Resolution of your Board dated March 19th, 1914, adopting amongst others, section (4) of the Report of the special committee appointed by Resolution of the Board to consider Judge Winchester's Report and Mr. Bishop's reply thereto and to investigate the conditions which prevail in the Building Department, we have gone over the evidence dealing with the contracts referred to and after consideration and consultation beg to report as follows:

These contracts may be divided into two classes:

- (1) Those already closed by final Certificate, settlement and payment, and
- (2) Those not yet closed.

Dealing first with the latter, namely, contracts not yet closed either by final Certificate or settlement and on which there are still balances in the hands of the Board, it may be noted that Mr. Bishop in his reply (page 23½) says: "A large part of the reports "of experts for His Honor and of the evidence as to these contracts "was devoted to work which was not and is not completed, has never "been accepted and has not been paid for and in which the Board is "fully protected by unpaid balances.

"His Honor stated in the investigation that it would not be "necessary to go into these from our side of the questions only when "it came to making the settlements although much time was given "to them in the inquiry and they are referred to at some length in "His Honor's Report.

"I shall therefore make very little reference to these unsettled "contracts, at the following schools mentioned in pages 84 to 189 "viz,—Brown, Frankland, Parkdale, Riverdale High School, York "St., Annette St., Earl Grey, Hester How, Harbord St. Coll. In- "stitute, Humberside Coll. Institute, Norway and Roden."

It thus appearing to be the intention of the Superintendent of Buildings that these contracts are to be dealt with by the Depart-

ment on their individual merits, the results brought out by the investigation and otherwise being fully considered, and adjustments and settlements made fair both to the Board and the respective contractors for the work actually performed, we cannot say the Board will suffer any loss in regard to these unclosed contracts.

In regard to the closed contracts, while we deem it unnecessary to report on each of the contracts, we have carefully perused all the evidence on same together with Judge Winchester's Report and Mr. Bishop's Reply and with the exception of the Riverdale High School contract of 1906 in regard to which there is singularly enough no evidence beyond the report of Messrs. Johnson & Doughty, the following may be said:

There is no doubt that variations from the specifications were made in a number of instances. It is also clear that according to some of the witnesses there were shortages in the work called for by the contracts and specifications and valuations were put in of the amount of such shortages. On the other hand there was evidence that the variations made were either directed or authorized by the Building Department and there was conflicting evidence as to whether these variations equalled in value and efficiency the work and material called for by the specifications. There was the statement that where there were shortages or deficiencies in value in the work actually done or materials supplied, such shortages and deficiencies had always been considered and taken into account when making adjustments and settlements. In view of the conflict in the evidence in this regard it is, in our opinion, of the highest significance to the question under consideration, namely whether the Board has suffered any material loss to ascertain the view of the Board's own officials in this connection, and for this reason; if outside witnesses differ on the subject, one naturally enquires, what is the view of the party alleged to be injured and if he himself, or in the case of a corporation, his agents disclaim any injury it would be well nigh impossible to find any Court that would not accept that view and decide against the other contention unless there was either fraud or collusion on the part of such agents, of which here there is not any evidence or even suggestion. Mr. Waste specifically states that in every settlement made all variations shortages, etc., were considered, and proper allowances made, and that the Board did not lose but in some cases actually gained by the settlements made. This is also borne out by the evidence of Mr. Bishop.

After a most careful and thorough examination of the evidence so far as it relates to the matters upon which we are asked to advise, we are of opinion that it is impossible to say the Board has suffered material loss, but even if upon the conflicting evidence a contrary conclusion might be come to, we are of opinion that the evidence of the Board's officials would render it impossible for any Court to give effect to same.

ADVISORY INDUSTRIAL REPORT NO. 15.

Tuesday, September 8, 1914.

To the Board of Education:

At a meeting of the above-named Committee, held this day, the following Members being present, viz,—Messrs. Ellis, Dineen, Fairbairn, Mason, Vokes, Brigden, Richards and Stevenson, it was decided to report as follows:

1. Your Committee has considered Section I of Report No. 14, referred back by the Board and again recommends that the architects of the new Technical School be allowed an additional One thousand dollars, (\$1,000.00), to be used as a contingency account to cover all minor changes in the contracts.

2. Your Committee has considered Sub-section (b) of Section 2 of Report No. 14 referred back by the Board and again recommends that the additional sum of \$1,211.00 be allowed to the contract of Norcross Bros., which is made up as follows:

Additional copper-covered doors.....	\$636 00		
Additional partitions.....	90 00

Respectfully submitted,

A. MacKAY,

Chairman of Committee.

Amended as follows:

1. By striking out all after the word “reports” in the first line of section 6 and inserting the following instead: “That whereas certain professors of the University of Toronto have complained to this Board of the language used by Principal Hagarty in a recent address to his pupils on the subject of the present war, this Board, after due enquiry and consideration finds as follows:

(1). That Mr. Hagarty did not use unduly strong language in denouncing the barbarism displayed by the Germans in this war but that on the contrary he did only his plain duty in explaining to his pupils the causes of the war and condemning the atrocious manner of carrying it on.

(2). That as Members of this Board of Education, holding, as we do, industrious, law-abiding Germans in this city in the highest esteem, nevertheless, we are of the opinion that the action of Professor Mueller, Professor Squair and others in making this attack upon Mr. Hagarty was unjustifiable and calls for the severest

censure and we commend Mr. Hagarty for his teaching of the principles of loyalty and devotion to our Empire and its interests in our schools.

The Board believes it is the duty of the Provincial Government and the Governors of the University of Toronto to enquire into the conduct of these professors and to require them to retract publicly the language they have used entirely upon hearsay evidence, and that a copy of this resolution be sent to the Provincial Government and the Board of Governors of the University of Toronto.

2. By referring sub-section (c) of section 17 back for further consideration.

3. By referring section 18 back for further consideration.

Adopted by the Board, as amended, October 1st, 1914.

W. O. McTAGGART,
Chairman.

(No. 96)

PROPERTY REPORT NO. 16.

(No. 98).

ADVISORY INDUSTRIAL REPORT NO. 16.

Tuesday, September 22nd, 1914.

To the Board of Education:

At a meeting of the above-named Committee, held this day, the following Members being present, viz,—Messrs. Ellis, Dineen, Fairbairn, McTaggart, Vokes, Brigden, Mason and Richards, it was decided to recommend as follows:

1. That Mr. Albert Young, B.A. Sc., of Toronto, be appointed Assistant Teacher of Architecture, Machine Drawing and Design, (Division 2), at an annual salary of Sixteen hundred dollars, (\$1,600.00), appointment to date from October 1st, 1914, if possible.

2. That the Principal be authorized to engage such occasional teachers for Day Classes as are required in connection with the Domestic Art and Domestic Science Departments.

3. That the Principal be authorized to employ, at the rate of one dollar per evening, an operator at the telephone switchboard, from September 24th to October 31st, 1914.

4. That the service of Mr. Seymour Collings, instructor in Drill and Gymnasium, be extended to five afternoons a week.

5. That Seven hundred dollars, (\$700.00) be transferred from the appropriation for "Fittings and Furniture for Technical Instruction" to the appropriation for "Printing Materials and Assistance."

6. That Armor Concrete be used on the basement floors, instead of ordinary cement painted, as originally specified, a test of same by the architects having proved very satisfactory, and the cost to the Board will be the same as if the painted cement were used.

7. That the sum of One hundred and fourteen dollars (\$114.00) be allowed the General Fire Extinguisher Co., to install heating and ventilating pipes, etc., for heating and ventilating two moving picture cabinets which the Board has added to the main auditorium and lecture rooms in the new Technical School building.

8. That, in view of the fact that only fifty-five out of the one hundred and thirteen telephone sets specified are being installed at the present time, iron boxes including covering and moulding at a cost of Three dollars and thirty-one cents each (\$3.31) be purchased from the Bell Telephone Co., to be placed at the locations where the telephones will eventually be installed, these boxes to be repurchased by the Bell Telephone Co. at the same rate as paid by the Board as the telephones are installed.

9. That the Norcross Bros. Co., be allowed Three hundred and sixty-five dollars (\$365.00) for making twelve hatches in the roof at various points so as to allow for the entrance of a man for repairs and examination of pipes, etc., this having been necessitated by the changing of the roof from a sloping one to a flat one.

10. Your Committee reports that it was necessary to install certain piping for equipment of the Forge shop and that the Architects were authorized to arrange for same on a basis of cost plus 10 per cent, not to exceed the amount of \$2,100.00, that this work has been carried out by the contractor at an actual cost to the Board of \$1,366.00 and recommends that this amount be allowed the General Contractors, Messrs. Norcross Bros. Co.

11. Your Committee has again considered sub-section (b) of section 2 of Report No. 14 referred back by the Board, and again recommends that the additional sum of \$1,211.00 be added to the contract of Norcross Bros. Co., which is made up as follows:

Additional copper-covered doors (to comply with Fire Underwriters requirements) on each flat from ducts to stair towers.....		\$636 00
Additional partitions and steps.....		90 00
Two brass ladders to plunge.....		175 00
Marble work in two toilets, floor border to main stairs, marble treads to stair from lobby and saddle to vestibule door (comprising the extras all on marble work.....		248 00

	<u>219 00</u>	
Additional small copper-covered doors under stair towers, including addition of arches over openings, etc.....		93 00
		<u>\$1,211 00</u>

12. Your Committee has considered section 3 of Report No. 15 referred back by the Board, and recommends that the Heaters now installed in the new Technical School be retained if on examination and test by the Engineers, they are found to be as good as the ones originally specified and that a deduction of \$1,500.00 be made which is the amount of the difference in value between these and the heaters originally specified.

13. That the following accounts be paid:

REPORT OF SPECIAL COMMITTEE RE REQUEST OF THE
CENTRAL NEIGHBORHOOD HOUSE AND RIVERDALE
SETTLEMENT.

To the Chairman and Members of the Board of Education, Toronto, Ont.:

Gentlemen:

Your Special Committee to whom the request of the Central Neighborhood House and Riverdale Settlement for use of McCaul and Roden Schools was referred, beg to report as follows:

This request is in detail as follows:

For McCaul School to be used from 8 to 10 p.m., six nights a week.

A man and woman to be in charge every night.

School to be open for boys and girls over 14.

The first floor and basements are to be used for games, folk dances, dramatics, debating, glee work, etc.

The use of the floor is to be alternated between the boys and the girls.

The head worker of the Central Neighborhood House will be in charge of the work.

For Roden School, the use of the Main Floor and Basement to be as follows:

Four afternoons, Gymnasium work, for children under 14 years, from 4.30 to 5.30.

Six evenings for girls and boys, (over 14 years) from 7.30 to 9.30.

Saturday morning for children up to 8 years, from 10 to 12 for

Gymnasium work.

Folk dancing.

Games.

Supplementary Instruction.

Craftwork, etc.

A man and a woman to be in charge, under the direction of the head worker of the Riverdale Settlement.

Your Committee is of the opinion that it would be a difficult matter to afford these privileges to the extent they are desired without interfering more or less with other interests of the Board and Public, and inconvenience to the regular school work.

If the class rooms are open for this purpose the books and supplies, except in the Kindergarten rooms, would be subject to disturbance and damage. The hours for closing at McCaul should not be later than 9.30 p.m., as in Roden School.

The nature of the games proposed should be definitely stated.

To grant the permission for such use of the building six nights in the week would prevent their being available for regular night school work should such be considered necessary or for other special use as meetings of Rate Payers, etc., which are frequently held in the various schools.

It would also necessitate having a day and night staff for Caretaking as no Caretaker could attend to all of the work.

Your Committee therefore, recommends that the request be not granted in its present form.

Respectfully submitted,

W. O. McTAGGART,
Chairman of Committee.

Referred to Property to consider and report on, October 1st, 1914.

W. O. McTAGGART,
Chairman.

MANAGEMENT REPORT No. 20.

Thursday, October 29th, 1914.

To the Board of Education:

At a meeting of the above named Committee, held this day, the following members being present, viz:—Messrs. McKay, Boland, Conboy, Fairbairn, Hopkins, Houston, Shaw and Vokes, it was decided to recommend as follows:

PART I.—HIGH SCHOOLS.

1. That the boys belonging to the Cadet Corps be allowed to distribute literature to the pupils in the schools, in reference to the prevention of tuberculosis.

2. That Cadet Corps be organized in all City High Schools and that the sum of Six Thousand Dollars (\$6,000.00) be included in the estimates for 1915 to provide equipment.—

For the information of the Board your Committee desires to state that proper uniforms for cadets will cost \$10.00 each; that \$272.00 was received this year from the Dominion Government, which is a rate of \$1.00 per head for cadets who appeared in proper form for inspection. Further, the Provincial grant of \$50.00 per school is now due from the Ontario Government, and when received is open for use for general purposes or for payment to the instructors for service in accordance with the custom which has prevailed for some time. In addition to this item the instructors are in receipt of a fee of \$50.00 per school from the Dominion Government for inspection purposes.

For the information of the Board your Committee desires to report that the following number of pupils are already enrolled as cadets: Jarvis 80; Parkdale 80; Harbord 180; Technical 130; Oakwood 120; Riverdale 75; Humberside 75; Malvern 50; North Toronto 40.

3. That the Chairman of the Management Committee and Mr. Hagarty be authorized to arrange for a review of the High School Cadets on a Friday afternoon at an early date.

4. That the Clerk of Supplies be instructed to obtain from each Collegiate Institute Principal a complete statement of all equipment for Cadet purposes, reporting losses if any.

5. That the Principals and Assistant teachers in the schools be allowed to distribute to the pupils, when requested to do so by the Toronto Military Training Association, copies of a circular issued by that Association; also to aid, in so far as possible, without interfering with the routine work of the school, the said association in the formation of Corps in the schools.

6. That Percy Edwards, Form II., Jarvis Street Collegiate Institute, whose name was omitted in the previous list, be granted a Scholarship.

7. That the tender of Jones & Moore to furnish motor generators and equipment for Harbord Street Collegiate Institute, according to specifications prepared by the Clerk of Supplies, for the sum of six hundred and seventy dollars be accepted.

(c) One dozen of the following maps mounted on spring roller at \$4.50 each: the World, South America, Ontario, Africa, Canada North America, Asia, Australia.

29. Your Committee regrets to report the death of Miss H. Johnstone, teacher in Niagara Street School.

30. Your Committee has considered the request of the Board of Control that the Board take over the Management of the Industrial Schools, and reports as follows:

That the Victoria Industrial School is a Provincial Institution, receiving commitments from all parts of the Province, those from Toronto being quite in the minority.

That the inmates are of too widely divergent types to be dealt with in the one institution, as they include juvenile delinquents, grown-up youths of criminal character, and numerous mental defectives.

That in view of these circumstances the Board of Managers of the Institution has done as well in the past as it was possible to do, and that with its improved condition in regard to finances, it will now be able to arrange for segregation of the delinquent and criminal classes, and do better work in the future, especially if relieved of the mental defectives.

That the Board of Education, under its plan for mental defectives, will be able to care for many of this type.

That the authority and responsibility of the Board of Education is limited to conducting a day school at the institution, and that it would not come properly within its sphere to undertake the management of a provincial institution.

Your committee therefor recommends against the transfer of the institution from the Industrial Schools Board to the Board of Education.

31. Your Committee has considered the question of the proper care by the Board of Backward and Higher-Grade Types of Mental Defective Children of this city and recommends as follows.

(1.) That the Board engage a competent psychologist to have charge of the examination of the mental status of school children who are supposed to be backward or mentally defective.

(2.) That the Board organize auxiliary classes at convenient centres in the city, where backward children may receive more individual teaching in small classes and under specially trained teachers. (The minister of Education has promised to assist in the establishment of a special summer course for such teachers).

(3.) That the Board establish a special school for the very backward and high-grade mentally defective children (mental age of 8 or higher) at some point outside of the City, where a sufficient amount of land can be secured at a reasonable price.

Low grade mentally defectives to be taken care of by the Government as the Board of Education is not called upon to care for any under mental age of 8. We feel confident that satisfactory arrangements can be made.

COST OF ESTABLISHING A TRAINING SCHOOL FOR THE FEEBLE-MINDED

Amount of land required:—Average of one acre for each inmate. Say 500 acres; all the land would not need to be used at first. Some could be rented for a time.

Cost of the buildings:—If these are to be substantially but simply built on the cottage plan of construction, it is estimated that the buildings may be erected for \$600.00 per capita for 500 inmates for 250 inmates about \$800.00 per capita, and for 100 inmates, about \$1,000.00 per capita.

The above estimates are made on the understanding that in building for 100 or 250 inmates, the administration and other buildings would be made large enough to serve when the institution had grown to accommodate 500 inmates.

For a farm colony, without the school buildings, and receiving only robust and able-bodied inmates, who are able to erect the buildings under direction and carry on the work of the farm in the

same way, it is estimated that it might be possible to erect the necessary buildings for a colony of 50 at \$300.00 per capita with equipment. If \$15,000.00 were the initial expense, additions might be made afterwards at the rate of about \$200.00 per capita.

The above estimates for buildings have been made by the Extension Department of the New Jersey Training School after consultation with several Superintendents. They represent a minimum cost, and this estimate is probably rather low.

THE COST OF MAINTENANCE.

The higher grades of mentally defectives are able to do fairly good work, and are partly self-supporting. At Darenth Industrial Colony, Dartford, England, the following estimates have been made:

Forty-five feeble-minded women can do the laundry work which twenty normal women (good laundry workers) can do. Taking a rough average of all kinds of occupations, four feeble-minded persons can do the work of one normal person.

Dr. Fernald, Waverley, Mass., has shown that in an Industrial farm Colony for mental defectives, strong, able-bodied men can practically earn enough to support themselves, if a fair market price is received for the farm produce.

In Vineland there are from ten to fifteen inmates, one employed in the school, one in the engine room, some in the workshops and houses, and a number on the farm, each of whom does the work that otherwise would have to be done by a normal person. This result is partly secured by finding out what each inmate can work at best, and partly by judicious and constant supervision. These inmates are seventeen years of age and upwards. In the case of children from ten to seventeen, the amount they are able to earn is of course much less, but it is always possible to make them useful in the institution, thus reducing the number of paid employees and general cost of maintenance.

Respectfully submitted.

A. McKAY,
Chairman of Committee.

Amended as follows:

1. By striking out section 12.
 2. By referring back section 16 for further consideration.
- Adopted by the Board as amended, November 5th, 1914.

A. McKAY,
Chairman *pro tem*.

No. 108.

PROPERTY REPORT No. 18.

Friday, October 30th, 1913.

To the Board of Education.

At a meeting of the above named Committee, held this day, the following members being present, viz,—Messrs Hodgson, Brown, Dineen, Ellis, Noble and Vokes it was decided to recommend as follows:

PART I.—HIGH SCHOOLS.

1. That a hardwood floor be laid in the Gymnasium at Riverdale Collegiate Institute during the Christmas vacation and that amount for same be placed in the estimates for 1915.

2. That in order to properly ventilate the Secretary's office, two eight inch electric fans be installed near the windows to conduct fresh air through ducts to the centre of the room at the ceiling, at an approximate cost of Eighty-five dollars (\$85.00).

3. That the tender of the Deisenroth Contracting Co. for cabinet work at Oakwood School High, in accordance with specifications prepared in the Superintendent of Buildings Department, for the sum of Five hundred and Fifty-two dollars (\$552.00), be accepted.

4. Your Committee has considered Mr. Ellis' motion "that in planning all new school buildings, air washers be provided for and installed, and as far as practicable, all old buildings be equipped with the same," and reports that, while it is a desirable thing that, the air supplied to the buildings be as clean and pure as possible, in view of the fact that the cost of such apparatus was not included in the estimates for this year, such installation be left in abeyance until next year, and that it be favorably considered when the estimates for 1915 are being prepared.

5. That the following accounts be paid:

SUPERANNUATION REPORT NO. 2.

Tuesday, October 20th, 1914.

To the Board of Education:

At a meeting of the above-named Committee held this day, the following members being present, viz,—Messrs. Shaw, Brown, McTaggart, MacKay and Jackson, it was decided to recommend as follows:

1. That Miss B. Dewey, former teacher in Sackville Street School, who is now suffering from long and continued illness after eleven and one-half years' service on our staff, be granted a Special allowance from the Superannuation Fund of One hundred and twenty-five dollars (\$125.00) per annum from July 1st, 1914, subject to her continued disability to resume her work.

2. Your Committee has considered Dr. Noble's motion: "That this Board make an annual grant to the Superannuation Fund of a sum not less than Twenty-five per cent. of the amount paid annually by the beneficiaries", and begs to report that in as much as the regulations of the Fund provide for supplementing the Fund at any time, it is deemed inadvisable to report in favor of the resolution.

3. Your Committee herewith submits a statement of the financial condition of the Fund, which is as follows:

REPORT OF SUPERINTENDENT OF BUILDINGS RE
UNSETTLED CONTRACTS.

To the Chairman and Members of the Board of Education.

Gentlemen:—

In compliance with your instructions on request of Trustee Vokes I herewith submit list of all old contracts unsettled on October 30th, 1914.

With the exception of two very small items in this list, the Contractors were not entitled to final payment until the latter part of 1910 and settlement of these and many others was held in abeyance on account of the recent investigation. Final payment for about one third of this list are now adjusted and will be reported at the next Property Committee, and the whole of the list will be adjusted and reported for settlement before the end of December, 1914.

Chief Inspector.

No. 127.

MANAGEMENT REPORT NO. 23.

Thursday, December 10th, 1914.

To the Board of Education:

At a meeting of the above-named Committee, held this day, the following members being present, viz., Messrs. MacKay, Conboy, Fairbairn, Hopkins, Houston, Shaw, and Steele, it was decided to recommend as follows:

PART I.—HIGH SCHOOLS.

1. That Mr. W. C. Michell, Principal of Riverdale Collegiate Institute, be granted leave of absence on December 21st and 22nd to qualify for position as Staff Officer in the Queen's Own Rifle Regiment.

2. That the Schools close for the Christmas vacation on Tuesday December 22nd and re-open on Monday, January, 4th.

3. That all balances to the credit of the different appropriations under the control of the Management Committee, be combined into one account.

4. That the following accounts be paid:

28. Your Committee submits herewith for information only those clauses of the Regulations governing Medical Inspection of Schools, intimately related to our organization, which have been recently enacted by the Government.

EXTRACT FROM REGULATIONS:—

(1.) That the School Board shall appoint for the purpose of medical inspection one or more legally qualified medical practitioners of, when practicable, not less than two years experience in the practice of their profession.

(2.) That Officer above shall be known as a School Medical Officer.

(3.) When the School Board appoints more than one School Medical Officer, one of the former may be designated by it as Chief

Medical Officer, and, subject to the Regulations, may be given such oversight of the duties of the others as the School Board may determine.

(4.) In addition to the School Medical Officer or Officers, the School Board may appoint one or more nurses who shall be graduates of reputable training schools for nurses and shall be known as School Nurses. Subject to the Regulations these nurses shall be under the direction of the School Medical Officer or Chief School Medical Officer, as the case may be.

(5.) The hours of work of the members of the said staffs shall be determined by the Board, but shall be during the regular school hours, except, in the case of the nurses, when home visiting may make regular hours impossible; but the School Board may arrange for additional home-visiting on Saturdays.

(6.) Subject to the approval of the Principal, the inspection shall be made in the class room and, for special examination in a suitable room or other part of the building where no other pupils are present.

(7.) Subject to the Regulations and the approval of the Minister, the School Board may pass by-laws defining the duties of said staffs and making provision for the carrying on of the work of medical inspection.

(8.) In such of his duties as effect the general organization and management of the schools, the School Medical Officer or the Chief School Medical Officer, as the case may be, shall be subject to the authority of the School Inspector, or the local Chief or Senior School Inspector, as the case may be, or of the Principal of the school when, owing to other duties, the School Inspector is not accessible.

(9.) The School Medical Officer or the Chief School Medical Officer, as the case may be, shall, in a written report to the Board at least once a month, bring under its notice any matters pertaining to his duties that require attention.

(10.) At the close of the school year or at such other times as he may be called upon, the School Medical Officer shall make a report to the School Board on the General health of the school children, and any condition of home environment that comes under his notice that injuriously affect the health of the pupils. In such report he shall make recommendations when, in his judgement, action should be taken by the Board.

(11.) The School Board may also appoint a School Dental Officer or Officers who shall be subject to the general oversight of the School Medical Officer as limited by the Regulations.

In accordance with the above quoted Regulations and in order to bring the health supervision of the school children into closer co-ordination with the rest of the school work and to bring the medical inspectors, dentists, and nurses into more personal touch with the Principals and Teachers, your Committee begs to submit for consideration the following:—

(1.) That the Chief Medical Officer shall, subject to the Regulations respecting organization and management, in consultation with the Chief Inspector, make out a time schedule for the School Medical Officer, Dentist, and Nurse, so that there shall be as little interference with the regular work of the classes as possible.

(2.) That the Chief Medical Officer shall consult with the Principal of each school as to the physical condition and cleanliness of the children in his school, and as to the specific performance of the duties allotted to the School Medical Officer, Dentist, and Nurse. The Principal shall report to the Chief Medical Officer the attention to duty of the Medical Officer, Dentist, and Nurse.

(3.) That as soon as school assembles in the morning and afternoon all teachers shall immediately send children, who have suspected disease, or who have been absent two or more days for suspected or known disease, to the Nurse or Medical Officer who will fill out a report to the Teacher for transmission to the Principal.

(4.) That the Medical Officer, Dentist, or Nurse shall always keep the Principal informed of the physical condition and cleanliness of the children they are treating, and of all children with contagious or other disease requiring exclusion.

(5.) That the Medical Officer, Nurse, and Teacher shall report to the Principal, children in need of clothing or boots, and children that seem to be insufficiently nourished.

(6.) That the Principal of each school shall enter on his monthly report to the Chief Inspector the attendance and number of times late of the Medical Officer, Dentist, and Nurse.

(7.) That the Teachers be asked to fill in the form supplied for each child, reporting to school record.

(8.) That the City, for the purpose of medical, dental, and nursing work and supervision, be divided into three field districts; namely:—

West:—comprising the schools West of Bathurst St., except Palmerston, Clinton, Givens, Crawford, Manning, and Niagara.

East:—comprising the schools East of Yonge and South of Bloor and Danforth, and Wellesley.

Centre:—The remaining schools.

This gives the following staff, schools, and children for each division:

West Division:—7 Medical Officers, 5 Dentists, 11 Nurses, 27 schools and one home, 20,604 children.

East Division:—6 Medical Officers, 4 Dentists, 12 Nurses, 26 schools and 3 homes, 18,742 children.

Centre Division:—6 Medical Officers, 4 Dentists, 12 Nurses, 25 schools and 1 home, 16,559 children.

(9.) That three Field Nurses be appointed. One to take charge of each district. At a salary of \$1,000.00, with a yearly increase of \$50.00 up to a maximum of \$1,200.00.

(10.) That the following be appointed Field Nurses:—Miss E. M. Paul, Miss E. J. Jamieson, Miss M. MacKay, and that Miss Paul's salary remain as it is at the present; that is, the maximum \$1,200.00.

(11.) That the duties of Field Nurses be as follows:

(a) To see that all orders for the direction and efficient carrying out of School Medical Inspection work are diligently and intelligently performed by the nurses in their field district.

(b) To report to the Chief Medical Officer, as may be required, of school conditions in their district, the work of the school nurses in their district, and generally to perform such other duties as the Chief Medical Officer may direct.

(c) To help a nurse whose work has been unduly increased by some special and local conditions, or for any other cause where such help is deemed necessary.

(d) Make home visits with the Nurses of her district for the help and guidance of the School Nurse in the tactful carrying out of this important work.

(e) To help in the organization of "Little Mothers' Leagues", Mothers' Meetings, Babies Clinics, and any special home investigation as to neglect or abuse of children or of tuberculous children, or of special poverty or want.

(f) To help in such other parts of the work as weighing and measuring children, giving Snellen test type for sight, and watch test for hearing, care of the files, etc., as time may permit.

(12.) That the name School Medical Inspector be changed to School Medical Officer, and Chief Medical Officer, respectively, and Dental Inspector to Dental Officer and Chief Dental Officer, respectively, according to the Government Regulations.

Respectfully submitted,

A. MACKAY.

Chairman of Committee.

Amended as follows:

1. By striking out the words "Tuesday December 22nd" in section 2 and 15 and inserting instead the words "Friday December 18th."

2. By striking out section 17.

3. By referring section 28 back for further consideration.

Adopted by the Board as amended December 17th, 1914.

W. O. McTAGGART,

Chairman.

No. 128.

ADVISORY INDUSTRIAL REPORT NO. 22.

Monday, December 28th, 1914.

To the Board of Education:

At a meeting of the above-named Committee, held this day, the following members being present, viz,—Messrs. Ellis, Dineen, Fairbairn, Vokes, Bancroft, Clarke, Mason, and Stevenson, it was decided to recommend as follows:

1. That a Domestic Science Teacher be provided each Saturday afternoon during the regular school term for the clinics in connection with the Medical Office of Health.

2. Your Committee submits herewith recommendations in connection with the staff to be employed in the Engine room, their necessary qualifications and initial salaries:

Organization and Staff:

(a) That a Department of Engineering be established in the Central Technical School, co-ordinate with the departments now existing, and that a Director of this Department be appointed.

(b) That the Director of the Department of Engineering be recognized as the Chief Engineer, having charge, under the Principal, of the Engine Power rooms and of the steam and gas engine laboratory.

(c) That there be appointed two operating engineers, designated First operating Engineer and Second operating Engineer.

(d) That two firemen (or more, if required) be appointed.

Qualifications and Salaries:

(a) That the Director of the Department of Engineering be a graduate of a recognized engineering school of high grade, and be capable of lecturing on theory and practice to engineering students. That the salary be the same as that paid to other directors in the school, according to the schedule adopted by the Advisory Industrial Committee in 1914 and approved by the Board of Education, and that the initial salary (which is not stated in the schedule) be \$1,800.00 a year. That the appointment be made not later than June next, to take effect on August 15th, 1915.

(b) That the First Operating Engineer be one who has had experience in operating a large modern power plant, preferably experience gained in connection with a power system similar to that which is being installed in the school. That he live in the building in the rooms provided. That the initial salary be \$1,200.00 a year with free apartment for himself and wife, including light and heat. That he be appointed in time to take charge of the power plant when the building is taken over from the Contractor's.

(c) That the Second operating Engineer have similar qualifications to those demanded of the First. That he be engaged for six months only, October 1st to March 31st, and that he be paid \$125.00 per month. That this appointment be made annually in September.

(d) That each of the Firemen be paid \$75.00 a month, and that one at least be appointed at the same time as the First Operating Engineer.

That applications for these positions, as well as for all other positions on the staff of the school, be invited by advertisement at least one month before the time of appointment and beginning service.

3. That the following accounts be paid:
